

## Group Assignments for Tuesday

### Remarks:

- Everyone should try to solve all problems, but each group is responsible for presenting the problems assigned to that group.
- You should have a complete, written solution ready to present in class on Tuesday (Nov 1)
- Make sure you get help from the professor or a tutor if you are stuck on a problem.
- The area outside Professor Aydin's office is an excellent place to study and he is usually available to help you even beside the regular office hours.

Group Members	Problems from 8.2
Louise & Yuming	20, 62, 88
Adam & Flynn	8, 30
Ruth & Edwin	29, 34, 92
Andrew & Gunner	57, 59
Zack & Austin	60, 75
Max & Hannah	74, 78
Heather & Kelly	71, 81, 96
