“Mathematics and Statistics  
After Kenyon”

In the 1987 film, *Wall Street*, Gordon Gekko famously said "The most valuable commodity I know of is information." As the advancement of technology allows us to process larger volumes of data in shorter periods of time, there has been higher demand for people who understand how to analyze and interpret them. A recent Kenyon alum talks about his life after Kenyon as an Econ Ph.D. student and a Financial Analyst at Bloomberg LP.
