

Practice with Big-O Notation

1) Let a and b be positive constants. Show that if f is $O(\log_a n)$ then f is also $O(\log_b n)$.

Determine the running time of the following program segments in Big-O notation.

2)

```
double sum=0;
for(int i=0; i<1000000;i++)
    sum+=sqrt(i);
```

3)

```
while(n>1)
{
    n=n/2;
    cout<<"This is a useless code";
}
```

4)

```
int count=0;
for(i=0;i<n;i++)
{
    count++;
}
```

5)

```
for(i=0;i<n;i++)
{
    m=n;
    while(m>1)
    {
        m=m/2;
        cout<<m<<endl;
    }
}
```

6)

```
for(i=0;i<n;i++)
{
    for(j=0;j<n;j++)
    {
        count++;
    }
}
```

7)

```
for(i=0;i<n;i++)
{
    for(j=i;j<n;j++)
    {
        count++;
    }
}
```

8)

```
for(k=0;k<n;k++) {
    for(i=0;i<n;i++)
    {
        for(j=0;j<n;j++)
        {
            cout<<i+j+k<<endl;
        }
    }
}
```

```
for(i=0;i<n;i++)
{
    cout<<i*i<<endl;
}
```
