welcomes

Dr. Robert J. Lang

**Circle-packing and Origami: A Discussion About the
Mathematics of Origami and a Hands-on Folding Party!**

Robert J. Lang is an American physicist who is also one of the foremost origami artists and theorists in the world. He is known for his complex and elegant designs. He has long been a student of the mathematics of origami and of using computers to study the theories behind origami. He has made great advances in making real-world applications of origami to engineering problems. This event is free and open to the public. *(Materials will be provided)*

Monday, February 8, 2010, at 3:10 p.m.

Franklin Miller, Jr. Lecture Hall

Hayes Hall 109
